MEMORANDUM FOR THE RECORD

SUBJECT:   11 January Tasking re Current Crises                              25X1

1.   During the debrief on 11 January the DDCI requested the
following actions be taken:

a.                                                                          25X1

b.

c.   Ensure that unclassified (or other) [        ] related        25X6
     material currently being passed to State on a regular
     basis gets to Aaron, Odom and Powell at the NSC/White          25X6
     House.  (Action:  NIO/USSR-EE)

d.                                                                          25X1

e.   Prepare a paper for transmittal to NSC which takes
     another look at Yugoslavia after Tito.  This can be
     based on the Summary of the NIE but it should be related
     to current events (Tito's health, Soviet move into
     Afghanistan).  (Action:  D/OPA, due to DDCI COB
     15 January)

f.   Prepare a paper for visit of Prime Minister Suarez
     on 14 January which notes how he might contribute to
     events in the Middle East, Central America and Africa.
     (Action:  NIO/WE, due 12 January)                                     25X1

g.  Pass via [          ] our assessment of the [      ]    25X6
    situation.  This should be more than routine assessments
    previously passed.  (This is in response to concern
    expressed by the SCC to [                ])  (Action:  DDO)    25X1

h.  Prepare a memo for DDCI signature to Aaron which outlines
    what is going on inside Cuba (a lot of SCC reaction to
    reporting in the State Morning Summary) and what we can
    do to exploit the situation.  (Action:  NIO/LA and D/OPA
    for what is going on; DDO for memo to Aaron re how to
    exploit.  NFAC paper to be attachment and factored in
    to memo.  Due COB 15 January) [        ]    25X1

2.  Please advise PB/NSC when action completed. [        ]    25X1
